Australia Reserve_ Open Space Case Study

1) Design accommodates a variety of activities (kickabout, play, relaxation, social gathering)
2) Materials are durable, low-maintenance and weather resistant
3) Shelter to provide shade; encourage longer stays and social interaction
4) Furniture with inclusive access; located for natural surveillance
5) Seating on cement pad to allow inclusive access with space for prams, wheelchairs etc
6) Tree plantings to provide future tree canopy shade
7) Bins and other street furniture placed off of pathways
8) Garden bed planting to help guide visitors and to add a sensory element
9) Clear pathways free from obstructions
