Vista Reserve_Open Space Case Study

Not pictured: graphic art court design
1) Materials are durable, low-maintenance and weather resistant
2) Design accommodates a variety of activities (kickabout, play, relaxation, social gathering)
3) Seating placed under shelters as well as natural shade to encourage social interaction
4) Street furniture placed off of pathways
5) Different surface treatments that align with the function of the areas and their intended use
6) Clear pathways with no obstructions
7) Cement pad to allow for inclusive access to seating, located for natural surveillance
