

## CONDITIONS

Pursuant to Section 221 of the Local Government Act 1999, a person (other than the council or a person acting under some other statutory authority) must not make an alteration to a public road unless authorised to do so by the council. Accordingly, a person makes an alteration to the road if the person erects or installs a structure (including pipes, wires, cables, fixtures, fittings and other objects) in, on, across, under or over the road.

1. Prior to submitting this application, the electrical contractor shall contact all service providers (electricity, phone, gas, water, sewerage) Dial-Before-You-Dig on **1100** or their website at [www.dialbeforeyoudig.com.au](http://www.dialbeforeyoudig.com.au) to ascertain the location of underground plant and any special precautions necessary.
2. Cables shall be laid in accordance with the AS/NZS 3000 – 2007 (Wiring Rules) and the SA Power Networks Service and Installation rules (S&IR).
3. The underground cables shall be laid from the SA Power Networks pole to the building alignment of the property, at 90° (degrees) to the kerb (refer diagram below for example).
4. When street trees are present, the electrical contractor shall at all times ensure that any damage to the tree and root system is minimized and seek Council advice prior to undertaking excavation works around any street trees.
5. On completion of the work, the affected footpath, verge or road shall be reinstated to the same level and of existing surface type that is free from trip hazards. The site shall be left tidy and in a safe condition. The reinstatement of the trench and footpath where applicable must be carried out to a standard acceptable to Council within seven (7) days of completion of the installation.
6. The electrical contractor shall erect signs, barricades and lights adjacent to the excavations, sufficient for the protection of pedestrians for the duration of the works. These shall be in accordance with AS 1742 – Part 3 (Traffic Control Devices for Works on Roads), and to the satisfaction of the Council.
7. The Council will not accept any liability for any damages or claims resulting from this Authorisation.
8. The applicant/electrical contractor shall for the term of the Authorisation, take out and keep current a public liability insurance policy to an appropriate level of cover per claim in respect of any negligent act or omission of the applicant/electrical contractor in relation to the alteration to the road or any activity arising out of or from the granting of this Authorisation by the Council.
9. The Council may at its sole discretion direct the applicant/electrical contractor to remove any structure or object erected or installed on the road and to reinstate the road to the satisfaction of the Council.
10. Notice of completed works must be provided to council no later than two weeks post completion. **The electrical contractor must issue a 'Certificate of Compliance' to the property owner and a further copy must be provided to Council.**
