# Personal Wellbeing

**Our City's Personal Wellbeing Index declined in 2022 but remains slightly higher than the national score**

# Personal Wellbeing

Feeling safe was the highest rated wellbeing domain and the only area which saw an increase

	2021		2022		T3B% change from 2021
	T3B%	B3B%	T3B%	B3B%	
Your standard of living	78	1	69	1	-9↓
Your health	62	2	55	2	-7↓
What you are currently achieving in life	64	1	54	3	-10↓
Your personal relationships	80	2	73	3	-7↓
How safe you feel	76	0	77	1	+1
Feeling part of your community	49	3	43	5	-6↓
Your future security	62	1	52	3	-10↓
Life as a whole	67	2	62	1	-5

# Personal Wellbeing

## What else is the wellbeing data telling us?

- Sense of achieving and future security saw the largest declines, potentially influenced by current pressures around cost of living and global circumstances
- Declines in satisfaction tended to be higher among females
- 40-59 year olds were less satisfied with all aspects of their wellbeing compared to 2021 (all statistically significant decreases except for health)
- Those aged 18-39 less satisfied overall; those aged 60+ most satisfied overall
- For *Feeling part of your community*:
  - Highest satisfaction for those aged 60+ compared to those younger
  - Factors influencing satisfaction relate to participation in community activities and having good/friendly neighbours

# Overall performance

Satisfaction with Council overall has increased since 2021

## Over time and benchmark comparisons

Top 2 box (T2B) = combined *satisfied* & *very satisfied* scores

# Overall performance

## Satisfaction with Council overall

- Satisfaction increased to 72% from 67% despite continued decline in *very satisfied* ratings
- Increase attributed to significant increase in those *satisfied*, particularly by those aged 18-39
- Those aged 40-59 were statistically less likely to be satisfied overall
- *Dissatisfaction* has reduced slightly from 9% to 7% in 2022
- Most common reason for being dissatisfied was perceived high Council rates (6 people)

# Physical Activity

The majority of our community had participated in some form of physical activity in the last 12 months

**83%**

*participated in physical activities in the past 12 months*

**38%**

*participated in physical activities in the last week*

***Were any of these activities organised by a club, association or other organisation?***

- Yes, all within the City of Tea Tree Gully
- Yes, some within the City of Tea Tree Gully and some outside the City of Tea Tree Gully
- Yes, all outside the City of Tea Tree Gully
- No

# Physical Activity

## Recent physical activity is linked to higher satisfaction with wellbeing aspects (health and achieving in life)

- Those who were younger (18-39 years) were more likely to have done physical activity in the last week compared to those aged 60+
- Those 60+ were more likely to have done physical activity as organised activities all within the City of Tea Tree Gully
- Males were more likely to have done physical activity most recently (today) than females
- Recent physical activity (at least within last week) equated to a higher level of satisfaction with *your health* wellbeing aspect
  - These people were also more satisfied with what they are currently achieving in life (with satisfaction declining with recency of physical activity)
- Participating in organised physical activity all within the City of Tea Tree Gully resulted in a significantly higher level of satisfaction with *feeling part of your community*

# Physical Activity

**Footpaths are the most common public space used for physical activity in our City**

*At least weekly usage of public spaces for physical activity*

70%

Footpath

44%

At a park

12%

Cycling path

# Physical Activity

## Frequent use of footpaths, parks or cycling paths is linked to higher satisfaction with health

- Those that use any of the above three public spaces for physical activity at least weekly were significantly more likely to be satisfied with their health than those who used these public spaces less frequently
- Just over a third of those aged 60+ said they had not used a park in the City of Tea Tree Gully for physical activity in the last 12 months
- Those aged 18-39 were significantly more likely to have used a park or footpath for physical activity at least weekly compared to those age 60+

# Physical Activity

High agreement that public spaces and facilities in local area are suitable for physical activity

■ Strongly agree ■ Agree ■ Neither agree nor disagree ■ Disagree ■ Strongly disagree

# Access and inclusion

20% of our community live with disability or someone in their household does

Those living with disability (in comparison to those living without disability):

- Tended to be older (60+)
- Were significantly less satisfied with various aspects of wellbeing (*life as a whole, your health, what you are currently achieving in life and how safe you feel*)
- Were significantly more likely to have not participated in any physical activities in the last 12 months
- Were significantly more likely to say they often have difficulty getting to the places they need to when asked about their transport situation
- Were significantly less likely to agree that *diversity is welcomed and celebrated in the City of Tea Tree Gully*

*Disability in household in 2022*

# Access and inclusion

**Satisfaction with accessibility of facilities and services largely unchanged since 2020**

	2020		2022	
	T2B%	B2B%	T2B%	B2B%
Parks, reserves and public spaces	86	3	89	2
Council-owned buildings and facilities, such as the Civic Centre and Library, community and recreation centres and public toilets	85	3	86	2
Council-run programs, services and events	70	7	67	3
Footpaths and locals roads	-	-	70	14

# Access and inclusion

**Those who live with disability generally less satisfied with accessibility, with the exception of Council programs, services & events**

- Dissatisfaction was highest overall for accessibility in relation to Footpaths and local roads

	Satisfaction with aspects of accessibility (T2B%)		Dissatisfaction with aspects of accessibility (B2B%)	
	Households with disability (n~99)	Households without disability (n~458)	Households with disability (n~99)	Households without disability (n~458)
Parks, reserves and public spaces	85	90	4	4
Council-owned buildings and facilities, such as the Civic Centre and Library, community and recreation centres and public toilets	81	87	5	2
Council-run programs, services and events	70	67	4	3
Footpaths and locals roads	62	72	21	13

Key reasons for dissatisfaction

- Not enough footpaths/walkways for wheelchairs
- Lack of maintenance
