National Clothing Product Stewardship Scheme and 2030 Clothing Circularity Roadmap

16th December 2021

Register your interest to have your say and to be kept informed about the progression of the national roadmap for clothing circularity.

[Charitable Recycling Australia](#) is the principal project partner of the Australian Fashion Council-led consortium that has been awarded a \$1 million grant under the [National Product Stewardship Investment Fund](#) to create Australia's first Product Stewardship Scheme for Clothing Textiles, as well as a National Roadmap for Clothing Circularity to 2030.

More information on this project can be accessed through the [Australian Fashion Council website](#).

On behalf of the consortium, *Charitable Recycling Australia* is taking the lead on stakeholder engagement, and they are keen to ensure councils are fully consulted and have opportunities to feedback and provide input on the design and development of the scheme, as well as the national clothing roadmap.

So, if you would like to be kept informed as part of the stakeholder engagement plan, please email [Omer Soker](#) (CEO Charitable Recycling Australia) with your name and contact details.

There will be opportunities to attend a national Town Hall meeting, and then provide feedback on mail importance to councils, as well as being kept up-to-date as the project develops.
